## SOUL SPACES | SPRING 2023

The new Zimmer + Rohde spring collection SOUL SPACES is a veritable cornucopia for the senses: Rough meets smooth. Matte meets shimmering. Soft meets hard. Rugged textures contrast with sumptuous, high-quality surface finishes. The perfect interior ambience is influenced not just by volumes, light and color but also by the texture of its surfaces. Fabrics play a key role in this interior choreography and enrich the space through the harmonious or deliberately contrasting interplay of elements. Tradition meets modernity. Ancient meets elegance. As the main protagonists in the new season's seductive yet durable creations, the natural materials of linen, cotton, silk and wool demonstrate the diversity of this exciting symbiosis.

Rareness and luxury are manifested in the unique character of these handcrafted products. Largely inspired by nature, the colors awaken emotional reactions: from radiant gold and bronze tones to soft ochres all the way to uplifting rosé and red nuances. This soothingly warm palette is rounded off by midnight blues and cool metallic variations such as silver and platinum.

For the new designs, we drew on a wide spectrum of inspiration. The appeal of nature's imperfections is not only celebrated in the

Japanese aesthetic concept of wabi-sabi, but also in one of our signature pieces, CRAFTED STRIPE, for which large stripes were artistically applied to natural linen. The mystique and magic of hidden places is conveyed by SECRET GARDEN, where opulently climbing, lush vines and flowers whisk us away to an enchanted garden full of colors and textures. And the mysteries of alchemy are also transformed into the aesthetic of the moment: the shimmering fabric texture of ALCHEMIST has a deceptively real metal look about it.

This is a collection that celebrates the soul and magic of materials. Many sensory experiences and personal stories contributed by our design team served as the narrative here. The traces they have left behind were combined with new ideas and woven into creative fabrics – at the focus is the mix of different surfaces, production methods and material contrasts using the finest natural fibers from flax to silk. Luxurious plain fabrics and vibrant textures are juxtaposed with artistically abstracted designs, which, when combined – visually and haptically – create a multi-layered ambience and breathe life and soul into any space. Welcome to your very own comfort zone.

## PERFECT MATCH | 10944

PERFECT MATCH is the blending of two most beautiful materials that nature has to offer. They may be very different, but they are made for each other when woven together in a harmonious composition. The high-quality flax fiber exudes clarity and allows for brilliant color results. Meanwhile, the wool content contributes volume, softness and stability. Each of the 25 colorways are a richly faceted play of natural colors.

Two simple, ancient shapes. Squares and stripes combine to create an expansive check pattern. The right hand corner is interrupted by the irregularity of the design and the lightly offset arrangement of the surfaces, providing a rhythmic playfulness to the eye-catching design. Through the elaborate combination of jacquard patterning and embroidery an expressive relief effect is achieved.

## SYMBOLS | 10946

The concentrically arranged bow-shaped motifs exude a mystical and meditative feeling. They awaken associations with pre-historic cave painting or ancient jewelry motifs. A special accent is set by the metallic shimmering paintbrush strokes, adding colorful highlights to individual motif details. The symbolic elements seem to repeat like a mantra, but are nevertheless each slightly different and therefore unique. This is the decorative and magical appeal of the elegant jacquard fabric. Available in four modern colorways, this signature design is just waiting to be unraveled.

## CRAFTED STRIPE | 10947

The hand-painted design of CRAFTED STRIPE is inspired by the Japanese concept of wabi-sabi. Wabi-sabi is based on the philosophy of finding beauty in every aspect of nature's imperfection. We celebrate the beauty of imperfection in handmade products with every meter of our CRAFTED STRIPE fabric. It is truly one of a kind. Like a piece of art painted onto a canvas, here too the colors were painted onto the natural linen base fabric with a paintbrush and roller. The imitable quality of this striped fabric lies in its unmistakable craftsmanship.

The three-dimensional all-over design was woven with voluminous bouclé yarn on an elegantly shimmering satin warp. Color-contrasting shadows in linen fabric create another layer and intensify the charming relief effect of the expressive jacquard. The eloquent character of the design makes RYTHM perfect as an eye-catching statement, ideal for smaller upholstered surfaces such as chairs or stools. But it really comes into its own, unfolding its full effect, on larger, soft upholstered furniture.
