

ZIMMER+ROHDE

Product data sheet

COZY is the quintessence of comfort and coziness. Every fiber of this masterfully woven fabric exudes luxury and naturalness. The loosely structured flammé yarn combined with the openwork grid structure accentuates not only the sophisticated character of the wool blend but invites you to reach out and touch it. A gorgeous detail is the selvedge edge with the extra-long fringing, which could be used as a unique eye-catcher, whether as a window treatment, cushion, or cozy throw.
